### Career History

#### Mattel, Inc

Feb. 2023 – May. 2023

#### Web UI Developer

- As a Globant collaborator our team provided services to Mattel, Inc. One of the services that Globant offers to Mattel is support with Shopify and NextJS. This involves using their expertise in these technologies to assist Mattel with various tasks related to their online shop, such as building and maintaining the website, optimizing the user experience, and ensuring that the site runs smoothly. Over time, Globant has built a reputation for its high-quality work and has become a trusted partner for many companies looking to improve their online presence.

Used Techs

NextJS	BuilderIO	ContentStack CMS
Liquid Language	Shopify Template	Jest Testing

#### TOTAL WINE & MORE, Orlando, US

Mar. 2022 – Dic. 2022

#### React Frontend Developer

- As a Globber collaborator, driven by an agile work methodology and the latest technologies, Total Wines And More, together with Globant's support, we are developing a new digital user experience platform to offer a superior service to all segments of its clients. The new, intuitive, personalized, and self-managed platform significantly changes the customer experience, representing another step in the cultural and digital transformation that the retail is already experiencing.
